## VariFit™ featuring AIR<sup>o</sup>gel<sup>®</sup> technology

The VariFit is a single patient use hospital NIV mask featuring a cushion with AIR<sup>o</sup>gel<sup>®</sup> technology for enhanced patient comfort. Colour coded elbows help the clinician to choose the correct mask for bilevel/CPAP using a single limb breathing system, or non-invasive ventilation using a dual limb breathing system. The breathable, quick release headgear is designed to fit easily to the patient and improve patient comfort.
